Hello, this is to let everyone know that Robin the bartender at the searchlight location is a god sent angel. she needs to be recognized for how she went well out of her way to save my life and possibly other lives on the hwy that day. I was having a stroke and did not realize it. I stop in to say hi on every trip since the shooting in Las Vegas because we both had common ties to the event. on this day when I came inside and sat down Robin noticed immediately that something was bad wrong and she wasted no time jumping into action and getting me the help I needed while continuing to take care of her customers and keep the situation calm she made sure I stayed off the road as I was on my way to Las Vegas. She got the paramedics there right away. bottom line is I had 3 strokes and had 2 blood clots in my lungs, 4 days in hospital. Robin, I thank you from the bottom of my heart for saving my life that day. I am with my kids now going through therapy and as soon as I am able I will come in and give you a very big hug. it is so nice to have people like you in this world. Thank you so much, Bret johnson
